As you drive towards the castle in its private grounds the driveway is lined with by palm trees.

Driveway Leading to the Venue.

The castle and restaurant are Spanish owned is described by locals as ‘The Jewel’

The castle is situated on the hilltop and is a replica of a palace and fortress complex of the Moorish monarchs of Granada in southern Spain. It is listed as a World Heritage Site.

The Castle & Restaurant are set just outside a small Typical Spanish Village, with its Town Square and small tapas Bars.

Yet the beach is only a 15 minute drive away, so it really is a hidden Gem, but easily accessible.

The venue is has access to two airports, both Murcia which is 20 minutes and Alicante which is 45 minutes. So cheap flights run from both Airports on a daily basis. Making this an ideal location

Within the grounds of the castle is a small oasis surrounded by palm trees, a truly stunning location.

The terrace of the restaurant overlooks the three lakes which are teeming with wildfowl. It is a very restful spot and at certain times spectacular waterfalls drop from the escarpment of the quarry into the lakes - apparently there are many caves and rediscovered underground passageways tunnelled into the cliff. Of course at night the place is subtly illuminated and there are many areas for 'al fresco' dining amongst the many antiquities that decorate the grounds

The cuisine is mixed so there is something for every wedding party
